<b>Advanced Application</b>				
Please note that we do not sell large Planewave devices such as the CDK 700/1000 and RC700/1000 and mounts such as the T-600 directly via retailers. Due to their complexity, special expertise is required for planning, installation and integration, which only our PW-trained staff can provide.				
However, we usually offer a finder's fee of 5% on the total value of the hardware provided to us by a dealer as part of such an order. This excludes the cost of installation and planning by our company, as well as any additional components added by us after the order has been transferred. Payment of the Finders Fee is due upon completion of the installation and final payment by the customer.				
<b>CDK700 / RC700</b>				
Concerning the CDK 700 / RC 700 we shall gladly provide a detailed offer for: optional Derotator-units for different instrument loads, heavy duty focusers suited to mount onto both sides of the fork arms depending on instr. load, tertiary mirror assembly to move the image into either side of the fork, remote dew heater units, remote controlled tube covers, light shrouds and tangent assemblies complement the instrument outfit				
1323270Q	700101Q	<b>PlaneWave CDK700 Nasmyth Astrograph f/6.6</b> with Fused Silica Optics Focal length 4638mm, incl. IR90 Derotator and Focuser for up to 18kg instrument weight, rotatable tertiary mirror with positioning device <b>requires crating #1323507</b>	sur demande	sur demande
1323272Q	700126Q	<b>PlaneWave RC700 Ritchey Chrétien f/12.0</b> with Fused Silica Optics For accessories, please refer to the current product description on the website. <b>requires crating #1323507</b>	sur demande	sur demande
<b>PW1000</b>				
Concerning the PW1000 we shall gladly provide a detailed offer for: f4.5 reducer, optional derotator-units for different instrument loads, heavy duty focusers suited to mount onto both sides of the fork arms depending on instr. load, tertiary mirror assembly to move the image into either side of the fork, remote dew heater units, remote controlled tube covers, light shrouds and tangent assemblies complement the instrument outfit				
1323300Q	1000101	<b>PlaneWave PW1000 Nasmyth Astrograph f/6.0</b> with Fused Silica Optics Main and secondary Mirror made from weight optimized fused silica, 3 lenses 170mm field flattener, 100mm corrected field of view, focal length 6000mm, incl. IR90 derotator and focuser for up to 18kg instrument weight, rotatable tertiary mirror with positioning device <b>requires crating #1323510</b>	sur demande	sur demande
1323301Q	1000125	<b>PlaneWave PW1000 RC Nasmyth Astrograph f/12.0</b> with Fused Silica Optics For accessories, please refer to the current product description on the website. <b>requires crating #1323510</b>	sur demande	sur demande
<b>Gimbals</b>
